

A truly awesome collection to have and to explore and it will all be right there in the palm of your hand very soon. A detailed companion guide will also come with your Mini Museum, but you can visit [minimuseum.com](http://minimuseum.com) today to learn more!

The Mini Museum invites you to explore your place in science, history, and time. Each specimen in the Mini Museum is carefully selected to create a unique collection which spans billions of years yet still fits in your pocket.

A Mini Museum is a personal collection of rare specimens from Earth and beyond. Carefully curated and handcrafted, each limited edition features a unique lineup of iconic specimens designed to inspire wonder and curiosity about the universe.

You're getting a Mini Museum!  
The Mini Museum is a hand-crafted  
collection of rare and unusual specimens  
from Earth and beyond.
