

YOU'RE GETTING A MINI MUSEUM!

AGE OF DINOSAURS

Paced across 185,000,000 years, Age of Dinosaurs is a breathtaking collection capturing the entire Mesozoic era.

Beginning with the near extinction of all life on Earth, we'll witness the struggle to rebound even as the surface of the planet tears itself apart.

Adorned with feathers and scales, species will radiate and blossom in unparalleled variety, and by tooth and claw... life will find a way.

While exploring geological wonders and delicate treasures, we'll study the lords of air and sea and visit with each major family of dinosaurs, from birth to death and all the steps in between.

You will hold the largest creatures to ever walk the Earth and the most powerful predators of all time, and then, when we've reached the end, we'll think deeply about where our own future might lead as life once more succumbs to a fiery cataclysm. A truly awesome collection to have and to explore and it will all be right there in the palm of your hand very soon!
